Purely Mutual, Equitable, Progressive and Secure. Twenty-seven years of Business Experience.

### *Assets, - $21,000,000!*
Safely invested and rapidly increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $33,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends actually returned (not promised) amounting to over $6,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of Insurance are granted on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. Upon this new plan it is confidently expected that the dividends will far exceed those now declared by any other Company.

## WHERE WE LIVE.

### *Animated Creation Confined to a Very Small Zone.*

Insignificant as is the spot we inhabit, the zone of life—the area which not only all that live and and move inhabit, but in which all vegitation is contained—is still more limited. From the sub-marine forest in the lowest depths of the sea to the highest attitude to which the condor soars, above the perpetual snow, is but twelve miles—six miles of air above us and six miles of water beneath—everything that has vitality is confined. If the salamander lives in the central fire, the exception is so small as scarcely to be worth mentioning. The air presses upon the earth with a force equal to 33 feet of water; and upon every average human body with a weight of fifteen tons, which only does not squash us flat as pancakes because the air surrounds us on all sides, including our insides, and thereby the weight is balanced. To most of us, Nature is one vast mirage, suggesting infinite delusions; and even to the learned many things still remain to be cleared up by slow-moving science in future ages. Who would imagine upon the face of the matter, for instance that in an airless world not a sound could ever be heard? On the contrary, in the still and silent space, one would conceive that he might hear a pin drop from the moon. Hawksby demonstrated the contrary of this fact in a memmorial experiment before the Royal Society 108 years ago. He placed a clock under the receiver of an air pump, in such a way that the striking of the clapper would continue after the air had been exhausted; while the receiver was full of air the sound was quite audible; when it was empty everything was quiet. Again, when the air was introduced, there was a feeble sound, growing in intensity as the air grew denser. At the top of Mount Blanc the report of a pistol is no louder than that of a common cracker let off at the level of the sea. "Above two miles," says Mr. Glaisher, who, as everybody knows, is an aeronaut of considerable experience, "All noises cease. I never encountered a silence more complete and solemn than in the heights of the atmosphere—in these chilling solitudes to which no terrestrial sound reaches." On the other hand clouds absolutely facilitate the transmission of sound. Above a great city, to a height of from 1,000 to 1,500 feet, there is always a noise, "immense, colossal and indescribable" The whistle of a steam engine is heard at 10,000 feet, the noise of a train at 8,200, says M. Flammarion; but Mr. Glaisher testified to having heard this latter when 22,000 feet up in the air; the barking of dog and the report of a gun rise each to 6,000 feet; the shouts of a crowd of people, the crowing of a cock, the tolling of a bell to 5,000 feet, and the shout of a human being to 3,300 feet.—*Chamber's Journal.*

SEVIER lake, in Utah, is a body of water some forty feet long by fifteen wide, distant about ten miles from the new Sevier mineral district. Its waters contain about the same proportion of salt as that found in sea-water. It is said that it has long been believed among the Indians living in the region around the lake that it is inhabited by marine monsters, and their terror of these creatures is such that they cannot be induced to go near this water. The Salt Lake *Tribune* says that a gentleman who recently returned from a visit to the Sevier country, rode several miles along the shore of the lake and saw several of these monsters sporting in water. The largest of these he rather indefinitely describes as being about fifty feet long by twenty in circumference, while its back, as it played and spouted was plainly visible ten feet above the water. He said he saw others smaller than the one described, similarly amusing themselves in the distance.

AN unfortunate culprit was recently brought before an Iowa justice charged with assaulting and battering a maiden. Investigation showed that the defendant had merely saluted the damsel against her will. She was in court, and gave her testimony looking so very beautifully that the Judge was compelled to make a special ruling. He could not, he said, in conscience fine the man for doing what was done; "for," said His Honor, "I have been obliged to hold on to the arms of my chair to keep from kissing the complainant myself." Never did a Judge give a more rational decision.

Some Boston man of the olden times writes thus regretfully:

"Thirty years ago a beef-steak, oyster and chicken supper, with cream, toast and coffee, and fixin's generally, cost but twenty-five cents a head, and 'dark seal' brandy, or any other brand was only six cents a glass, and large bottomed cut-glass tumblers at that.

The latest thing attributed to A. H. Stephens, V. P of the defunct confederacy, is this: "The questions, 'What is Democracy, and who are Democrats?' are as momentous in their range as was that of the great Cato, when he exclaimed, 'To be or not to be, that is the question?'"

Prince William the Silent is to be monumented. He was a German.

### The County and City Authorities on an Excursion.

This morning the members of the Board of Supervisors, county officers, the aldermen and other officers of the city, departed for Indianapolis, going over the new I. & I. C. R. R., by invitation of President Hammond.

The rain, which commenced falling about daylight, doubtless kept some of our local magnates from joining in the excursion, but at the hour fixed for the starting of the train the large majority of them were on hand. The following comprised the official portion of the party.

SUPERVISORS

N Failing and wife; A. T Davis and wife; Wm. Davis and wife, Jacob Spangler; Samuel Cooper and daughter; D. Patterson, P. F. Lehman and wife; D. L. Hughes; E House; Hiram Ward; H. W. Waggoner and wife; C. C. McComas and wife.

CITY OFFICERS, ALDERMEN.

L. F. Muzzy and daughter, George Stare; J. L. Peake A. Shoemaker and wife, W. W. Mason and wife.

I. A. Buckingham and wife, Andrew Martin; M. K. Hatch and wife; Geo. P. Hardy and wife; A. J. Gallagher and wife.

Besides the above there were representatives of the press, and other citizens.

The train consisted of two splendid passenger coaches, smoking car and baggage car, and is the same one which came over the road with a party of Eastern gentlemen a short time ago. At Tuscola, Newman, Camargo, Chrisman and Montezuma, additions will be made to the party, and Mr. Warren, under whose management the whole affair was planned, informed us that he expected the number of excursionists to reach 250 before arriving at Indianapolis The route of the excursion was laid down as follows. Over the I & I. C. R. R. to Montezuma, thence south over the E., T. H. & C. R. R. to Terre Haute, thence over the I. & St. L. R. R. to Indianapolis, reaching the latter place at 4½ p. m. to-day. The company will domicile at the Bates House while in Indianapolis, and will start homewards to-morrow morning at 9 o'clock, reaching here sometime in afternoon.

The most complete arrangements have been made by the officers of the road for the comfort of their guests, including a lunch aboard the train, and the party will doubtless have a pleasant trip.

WASHINGTON, June 9.—The Treasury Department is quietly buying up the scattered records of the Confederate Government in the various Southwestern cities, with the single purpose of defeating exorbitant and fraudulent cotton and other claims against the Government of the United States. The Pickett purchase, concerning which much discussion ensued during the Presidential campaign last year, is declared to be well worth the price paid in the evidence it furnished to defeat pending claims. Though all tests of loyalty will be eventually removed by the courts and congress, it is not presumed that false claims will receive legal recognition, and the records now collecting afford proofs of different ownership and disposition than testimony of claimants show. It is believed great frauds exist in the immense cotton claims at Savannah, just allowed by the Court of Claims in favor of alien rebels there resident The Treasury has ample funds to buy evidence against false claims, but refuses to pay fancy prices.

A NEW potato bug remedy is announced, consisting of the extract of mandrake root which is obtained by boiling the root down in a common kettle. The extract is then sprinkled over the vines, and is said to be very effective

### ATROCIOUS MASSACRE OF MODOC CAPTIVES.

### SEVENTEEN INDIANS MURDERED BY OREGON VOLUNTEERS.

### TREASURY DEPARTMENT BUYING UP REBEL ARCHIVES.

### Valuable Information Furnished Concerning Southern Claims,

### Walworth the Murderer—No Comforts Furnished by His Friends.

### Burning of the Alexandria Palace, near London.

SAN FRANCISCO, June 9.—A dispatch from Boyle's camp Sunday relates the particulars of an atrocious massacre of Modoc prisoners, supposed to have been done by Oregon volunteers. Saturday morning John James Fairchild and about a dozen other men left Fairchild's ranch on Cottonwood Creek, with seventeen Modoc captives, women and children including Shacknasty Jim, Bogus Charley, Tehee, Jack, Pony and Little John. The Indians were in a wagon drawn by four mules, and in crossing Lost River the party encountered some Oregon volunteers under command of Capt. Hiser. The soldiers gathered about the wagon and questioned Fairchild. The latter told them that the Modocs were all Hot Creeks, except Little John, and that there were no charges against them.

Fairchild undertook to push on to Boyle's Camp, and the volunteers retired to camp near Crawley's on the same road. He noticed two men ahead riding to a rocky point, as if to intercept him, and when the team approached one of the men presented a needle gun at Fairchild, saying get down, you old white headed s—n of a b—h. By what authority? said Fairchild. By mine; I'm going to kill the Indians and you too, was the reply.

The leader caught hold the mules, unhitched them and cut the harness. Fairchild, still clinging to the lines, jumped to the ground. The poor wretches implored for mercy, begged Fairchild to save them; the warriors were unarmed, knew that resistance was useless, and they were the coolest in the party, though facing certain death.—The women and children shrieked and groaned piteously. Fairchild had nothing but a small pistol, and six inches from his head was the muzzle of a needle gun. He says the tears came to his eyes; he mingled his voice with that of the Modocs in hopes that the massacre might be avoided. Oh it was a terrible scene, says he; one I think I shall never forget. I shudder when I think of what I saw and heard—the tearful voices of those women and children still ring in my ears; but cowardly hands were not to be daunted. A shot, and Little John lay dead in the bed of the wagon, with a bullet through his brain.

The mules dashed away with Fairchild and tangled him in the lines. Five more shots were fired in rapid succession, Tekee, Jack, Pony and Moocke, remaining warriors were dead. Little John's squaw had a frightful wound in the shoulder. Away ahead in the road in the direction of Boyle's camp, was a cloud of dust indicating the approach of a team, the murderers espied the dust in a moment and were riding rapidly away. Sargeant Murphy, battery G, of the fourth artillery, with ten men and teamsters came by the team; the Sargeant took charge of affairs and remained with his men on ground where Fairchild and the teamsters were wounded. The squaw and her children came at two o'clock this morning. Fairchild reached Gen. Davis' headquarters and related his story, and teams with an escort were at once sent out after the prisoners dead and alive. No steps were taken for the apprehension of the felons who performed the bloody work. It is generally supposed that the Oregon Volunteers are the guilty parties. Fairchild is of the same opinion himself.

The warriors killed were not charged with murder. Those who know them best say they have only participated in open fights. Everyone here condemns the affair as atrocious and without excuse. There is no doubt but the murders were carried out upon a carefully arranged plan, as Fairchild notified horsemen on the road ahead and behind him when the shots were fired. Had John Fairchild instead of James been present, another murder might have been added to the list, as the Oregonians are bitter in hatred against John, the old man and other Californians The Warm Springs have only a few weeks longer to serve. Sargeant Clinton is fast failing.

The news of the massacre of the Modoc captives caused universal surprise and indignation and the atrocity is loudly denounced by everyone.

NEW YORK, June 9.—The remains of Minister Orr are reported to-day in steamship Thuringia, and the Government has tendered a tug, which will carry the body to this city, where it will be received by a deputation of Knight Templars. The body will lie in state in the City Hall, and the funeral will take place at Dr. Hepworth,s Church on Thursday.

Young Walworth still evinces the same apparently indifferent manner. He was visited to-day by his uncle Father Walworth, Judge Barbour, and several other relatives, who had brief interviews with him His mother did not visit the prison. He occupies an ordinary cell, and at present nothing has been done to promote his personal comfort, no article of furniture, bed or bedding having been furnished by his friends.

Mrs. Victoria Woodhull passed a quiet and comfortable night, but her condition is still precarious.

LONDON, June 9.—Total loss by the burning of the Alexandra palace is estimated at three million dollars; insurance six hundred thousand dollars.—The fire was caused by carelessness of workmen who were repairing the zinc roof. No one was killed as reported, but several were injured. The supply of water was scarce, hence the rapidity with which the fire spread. Within half an hour from the time the alarm was given the entire structure was enveloped in flames, and one by one the great domes by which it was surrounded fell in. The large organ was destroyed.

PARIS, June 6.—The payment of the first installment of the remaining million francs of war indemnity due to Germany on the 5th inst., was completed on Saturday last.

MADRID, June 9.—Senor Margall has withdrawn his list of ministers and Figuras has been called on to resume the conduct of the government with his old cabinet.

## Official City and County Papar.

### CITY DEPARTMENT.

...Allow me to show my attachment for you—As the sheriff said when he presented a fellow with a warrant for his arrest.

...We were regaled yesterday with a fine shower about three o'clock, which cooled and cleansed the air. Rain set in again during the night and continues this morning with prospect of a wet day.

...Ferdinand Ghert, who was arrested last week for stealing clothing from the boarding house of Mrs. Mowry, had a preliminary examination before Esq. Hatch yesterday, and the prosecuting witness not appearing the prisoner was discharged.

...Our excursionists left for Indianapolis this morning over the new road. The weather was a little against their comfort in getting to the depot, but we presume they will see sunshine before they got back. We hope none of them will get so as to see double while they are gone.

...Mr. John Stare, living on North Franklin Street, has moved the frame house in which he lives far enough south to admit of the erection of a new brick dwelling on the same site formerly occupied by the old frame. This will be a fine improvement to that part of town, and will fill out that side of Franklin Street, between Eldorado and Cerro Gordo, with a good class of dwellings.

...The coal business seems to have been forgotten. Our people effervesced over the matter pretty vigorously for a while, but the excitement was about as short lived as the fizzing and foaming of a glass of soda, and like that beverage it "went down." We suppose the return of cold nights and frosty mornings will bring on the coal fever again.

...Young Blokes, who was committed to jail last night after the affray of which we speak in another place, grew considerably worse in the night from his self-inflicted wound, and was removed to his father's residence on Morgan Street. But little hopes are entertained of his recovery.

...A young girl in Brooklyn, New York, thought she was dying of love, but a council of physicians pronounced it dyspepsia, and prescribed accordingly. Their treatment soon brought the roses back to her cheeks. It is often the case that disease of the stomach is mistaken for heart complaint.

...A young man by the name of John Melroy, in the employ of Richard Allison, near Macon, borrowed a horse of his employer on Friday to go to Macon. Instead of going to Macon he pointed for Pana where he was apprehended on Saturday by officer Timmons. He had a preliminary examination on Saturday before Squire Sowell, and was held to answer at the next term of the circuit court under bonds of five hundred dollars, in default of which he was committed to jail.

*Free Public Library.*—The committee appointed by the Ladies' Library Association to inquire into the propriety of converting that institution into a free Public Library and Reading room and examine the law pertaining to them has made its report. They favor the measure providing the life members are willing to relinquish their tickets. This will be quite a sacrifice of course, but the members will no doubt consent to it for the public good.

By a law passed at the last session of the State Legislature, city councils are empowered to establish public libraries and levy a tax of not exceeding one tenth of one per cent. for their maintenance. The assessed valuation of this city is $8,700,000, one tenth of one per cent of which is $8,700, a sum ample for running expenses and the purchase of new books. One-twentieth of one per cent. would be sufficient. It now remains but with our city council to accept the generous offer which the Association will surely make. Let them embrace the opportunity to obtain this large and valuable collection which will form a solid nucleus for a future great public library. It would be of untold benefit to our city. A public library is almost as necessary and important as a public school.

It would be appreciated and patronized. Young men who are now seduced by the allurements of brilliantly lighted saloons would forsake their haunts of vice where they ruin mind and soul, for something better where they would improve both. Let us by all means have a FREE PUBLIC LIBRARY.

*Masonic.*—All the members of Ionic Lodge No 312, who desire to attend the Masonic basket picnic at Mt. Pulaski, next St John's Day, are requested to advise me of their intentions between now and next Saturday night at the latest.

*Suicide.*—Mrs. Annie Nichols, about 75 years of age, living with her daughter, Mrs. Brewington, on North Church Street while laboring under a temporary derangement of the mind, committed suicide early this morning by throwing herself into a cistern. As she did not make her appearance as early as usual, the family visited her room to learn the cause of her non-appearance, and discovered that she had risen. Search was at once made and resulted as above stated. She had exhibited signs of insanity for several years, and lately the family had kept a close watch upon her, fearing that she might put herself out of the way. A coroner's jury was summoned by Coroner Givler, who after examining into the case rendered the following verdict:

We, the undersigned jurymen, summoned to determine the cause of the death of Mrs. Annie Nichols, being duly sworn and having examined all the testimony within our reach, decide that she came to her death by suicide; and we further state that she was led to the act by temporary insanity.

Signed DR B A ALLISON, Foreman, E G Tucker, E D Carrer, W F Ballard, J W Armstrong, Volney Barber, N A Adams, Wm Vermillion, W Albert, C D Nims, G W Leforgee, W T Mills.

*Remember that Miss Jane Coombs* appears at the Opera House to-night as Juliet, in Shakespeare's sublime tragedy of Romeo and Juliet. Miss Coombs is supported by a first-class dramatic company, and those who fail to go will miss a treat.

*Police Record.*—Martin Conly was before Justice Albert yesterday charged with disturbing the peace. As the disturbance was not a very big one, the Squire thought three dollars was all Martin could afford to pay for the entertainment, with three dollars more for necessary incidentals.

*Reserved Seats* at the Opera House, for the entertainment to be given this evening by the Miss Jane Coombs Combination Company, are going off rapidly. Those wishing good seats should apply at once.

*Personal.*—Mr. David Garver, Sen., of Whitmore township, has moved to town, and is now residing with his son-in-law, Mr. Alfred Diehl. Mr. G. was in our office to-day and subscribed for our Daily.

*New Hack.*—The proprietor of the Hockaday House is about to start a splendid new hack, to run in connection with his house, carrying guests to and from the depot, and making city calls. The vehicle is first-class in every respect, and will commence to run in a few days. Look out for the "Accommodation Railway Hack."

THE cholera has not appeared north of Nashville, so far as reported, and is abating at that city. The weather is now cool and pleasant, but scorching days may be expected in July and August, and people should be careful what they eat, and should see that their home surroundings are kept in a proper state of cleanliness.

THE farmers in various parts of the Northwest have been making an excellent use of the favorable weather of the past week, putting in their corn and potatoes. They will give us good crops this year, notwithstanding the discouragements of the severe winter and the late spring.

IT is announced that the Illinois Central Railroad's freight contracts are to be cancelled on the first of July, as that company intends to conform strictly to the new state law.

Harper's Magazine

Notices of the Press:

The over-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—Boston Globe.

The character which this Magazine possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—Brooklyn Eagle.

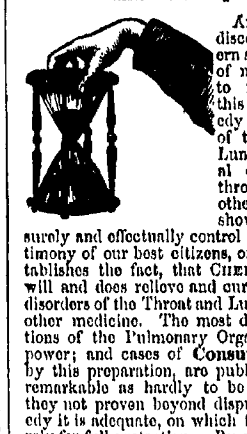
Ayer's

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.



Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

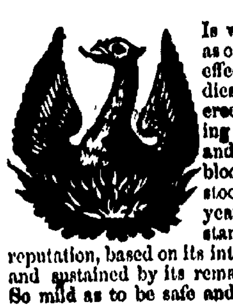
Ayer's

Sarsaparilla



Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.
